

WMP Expert

WASTE MANAGEMENT PLANNING EXPERT TRAINING PROGRAMME

Training for Organization Developers

The WMP EXPERT TRAINING PROGRAMME aims at understanding and managing waste in organizations. The underlying goal is to give knowledge, tools and skills how to plan and motivate organizations taking the waste management in control.

CHALLENGE	SOLUTION: TRAINING FROM TAKK
How to start waste management in organizations?	Learn the basics of waste management and waste reduction
How to control organizations waste issues?	Learn to develop waste management plans for organization
How waste management plans are implemented in organizations?	Learn how to train and instruct personnel in waste management

BENEFITS OF THE TRAINING

- The Trainee is able to develop organizations waste management with quality and efficiency.
- The organization receives expert who can plan proper waste management for organizations and reduce their waste production. This will be beneficial to revenue as the recycled materials can be used as raw materials. Solid waste sorting and recycling is good for environment, public health and for company image.
